Subject: US 50/South Shore Community Revitalization Project – Review of Air Quality Study Report

Dear Reviewer:

The Tahoe Transportation District (TTD), with assistance from LSA Associates and Wood Rodgers, has completed the Draft Air Quality Study Report for the US 50/South Shore Community Revitalization Project (Project). The Air Quality Study Report is one of the required technical studies for the completion of the California Environmental Quality Act (CEQA), National Environmental Policy Act (NEPA), and the Tahoe Regional Planning Agency (TRPA) environmental documents.

The technical studies are intended to provide the analyses of potential project related environmental impacts that will be used in support of the environmental documents and findings the proposed project. Under CEQA, TTD will be the lead agency for the project environmental documentation, including the appropriate technical studies. FHWA will serve as the NEPA lead agency, and TRPA will also participate in the NEPA review process as required by the TRPA Rules of Procedure and Code of Ordinances under separate process.
